

GT AMERICA

Ravage

About

GT America is the missing bridge between 19th century American Gothics and 20th century European Neo-Grotesk typefaces. It uses the best design features from both traditions in the widths and weights where they function optimally. Its eighty-four styles span across six widths and seven weights.

Designed by
Noël Leu

Background

Gothic typeface designs in the United States and Grotesques in continental Europe did not evolve separately from each other. Yet Neo-Grotesk designs squarely build on the structure and ideals of European typefaces such as Scheltersche and Akzidenz Grotesk.

GT America builds a bridge between the American Gothic and European Neo-Grotesk traditions with a Swiss approach. It uses the best design features from both type cultures in the widths and weights where they function optimally. That way, the two traditions come together to form a very large, yet coherent and functional typeface family.

Design Features

Aperture

Stroke endings in characters like S become more angled the heavier the weight. This helps to prevent closed, dark counters.

Pathing

Characters like C, O, e, s were drawn to allow for both straight and curved vertical sides, depending on the subfamily.

Italic

GT America's Italics are manually corrected to make sure they fit with Roman styles in both construction and text color.

About GrilliType

Grilli Type is an independent Swiss type foundry. We offer original retail and custom typefaces, high quality products with a contemporary aesthetic in the Swiss tradition. This tradition is reflected in the visual but also the technical standard of our fonts and our service. Together with our designers we create useful, high quality typefaces that stand the test of time.
